High Mast Retrofit Review Checklist

Jieyao Lighting | 21 November 2026

Project: _____ Date: _____

Record the selected configuration and document reference. This worksheet supports project comparison; it is not an installation procedure or a substitute for the accepted design.

Item	Information to record	Project notes
Asset identity	Mast, foundation, head, lowering/access arrangement and available records	
Condition	Specialist inspection scope and disposition of findings before reuse	
Retained boundary	Each item identified as retained, renewed or removed	
New assembly	Fixture, bracket, driver, box and cable masses, areas and positions	
System compatibility	Accepted travel, docking, support and access interfaces	
Electrical	Supply, driver location, protection, control and retained cable review	
Lighting	Exact photometry, actual coordinates, aiming and applicable maintained criteria	
Comparison	Equal lighting task, hours, complete scope and documented cost assumptions	
Handover	Revised drawings, approved schedule, system procedure, checks and settings
